

THE 7TH INTERNATIONAL SCIENTIFIC AND PRACTICAL CONFERENCE
«ENGINEERING PROTECTION OF TERRITORIES, BUILDINGS AND STRUCTURES»
17-18 September, 2025, Kaliningrad

International Association of Foundation Contractors invites you to participate in the 7th International Scientific and Practical Conference «**ENGINEERING PROTECTION OF TERRITORIES, BUILDINGS AND STRUCTURES**», which is to be held **from 17 to 18 September, 2025** in Kaliningrad.

The **exhibition «Construction technologies for engineering protection»** will be held as part of the conference.

International Association of Foundation Contractors is the conference organizer.

«FOUNDATIONS» journal, «HYDROTECHNIKA» journal, «Mir dorog» («World of Roads») journal, journal «Dorozhnaya derzhava» («Road Power»), journal «GeoInfo», «Stroitel'naya gazeta» newspaper (Newspaper for Constructors), newspaper «Vestnik Inzhenernyh Izyskaniy» («Engineering Survey Bulletin» Newspaper) are the conference **title media partners**.

THE MAIN TOPICS OF THE CONFERENCE ARE AS FOLLOWS:

- Natural hazards and risks: study, analysis, monitoring, modeling, forecasting, warning and management.
- Engineering surveys for the rational use of territories, protection of buildings and structures.
- Engineering protection of territories from various types of natural and natural-technogenic hazards: endogenous geological (including seismic), exogenous geological, geocryological, and hydrometeorological hazards.
- New promising structural and technological solutions for the construction and reinforcement of foundations.
- Geotechnical monitoring during the construction and operation of buildings and structures.
- Analysis of the causes of emergency situations during the design, construction and operation of building and structure foundations.
- Engineering protection of historical buildings and structures, architectural monuments.
- Russian and international experience in implementing engineering protection measures in various industries:
 - ✓ during the construction of roads, bridges, tunnels;
 - ✓ in hydraulic engineering construction (shore protection, construction of dams, dams, etc.);
 - ✓ during the construction of power lines, substations, hydroelectric power plants and other energy facilities;
 - ✓ during the development of oil and gas fields and the construction of oil and gas pipelines;
 - ✓ in the mining industry (during the development of deposits and the operation of quarries, during mining operations, etc.);
 - ✓ during the construction of residential and industrial buildings and structures;
 - ✓ during the construction of facilities of the Ministry of Defense of the Russian Federation and the Ministry of Emergency Situations of the Russian Federation.

THE CONFERENCE TIMING:

- **17 September** — technical and commercial reports;
- **18 September** — technical excursion.

ATTENTION! Please fill in the **APPLICATION FORM** to participate in the conference and send it to the conference managers from the International Association of Foundation Contractors by e-mail: info@fc-union.com.

If you need the application form or any other details, please, feel free to contact us by phone: +7(495) 66-55-014, +7 (916) 36-857-36, +7 (926) 384-74-68, +7 (925) 86-101-81.

We are sure that the information received during the conference and communication with your associates will be useful in your professional activities.

We will be glad to help you in the successful development of your business!

Best wishes,

Director General of the International Association of Foundation Contractors,
Catherine Dubrovskaya
