THE 6TH INTERNATIONAL SCIENTIFIC AND PRACTICAL CONFERENCE
«BRIDGES AND ROADS: MODERN TECHNOLOGIES OF DESIGN,
CONSTRUCTION AND RECONSTRUCTION»
9-11 April, 2025, Moscow

We are pleased to invite you to participate in the 6th International Scientific and Practical Conference «**BRIDGES AND ROADS: MODERN TECHNOLOGIES OF DESIGN, CONSTRUCTION AND RECONSTRUCTION**», which is to be held **from 9 to 11 April, 2025** in the Sushchevsky Safmar Hotel (previous name Holiday Inn Moscow Sushchevsky), 74 Sushchevsky Val Street, 2nd floor **in Moscow**.

The exhibition of «**Materials and technologies for bridge and road construction**» will be held as part of the conference.

International Association of Foundation Contractors is the conference organizer.

Zinker Company / Zinker LLC is the general sponsor of the conference.

LLC «NTP «Gorizont», LLC «Special fund of repair solutions» is the conference title sponsor.

The conference is officially supported by: **JSC Research Center of Construction, JSC TSNITS, JSC TSNIPSK named after Melnikov**.

«FOUNDATIONS» journal, journal «Dorozhnaya derzhava» (Road Power), journal «Avtomobil'nie dorogi» (Motor Roads), journal «Dorogi. Innovatsii v stroitel'stve» (Roads. Construction Innovations), journal «Transportnoe stroitel'stvo» (Journal of Transport Construction), journal «Mir dorog» (World of Roads), «Stroitel'naya Gazeta» newspaper (Newspaper for Constructors), journal «Pytevoi navigator» (Route Navigator), «Tekhnologii Betonov» journal (The Concrete Technologies Journal) are the conference **title media partners**.

THE MAIN TOPICS OF THE CONFERENCE ARE AS FOLLOWS:

- The state of the regulatory framework for bridge construction.
- Trends in the development of Russian and foreign bridge construction. Transport science – bridge engineering.
- The national project «Safe and high-quality roads»: tasks and solutions.
- Modern technical solutions in the design and construction of bridges. Issues of typical bridge design. Features of calculation of curved bridges.
- Engineering software for the design, construction and operation of bridge structures. BIM technologies in bridge construction.
- Engineering protection of bridge structures and approaches to bridges: shore protection, slope reinforcement, noise and vibration protection, fencing.
- New technologies for strengthening slopes and roadways.
- Modern building materials for the protection of bridge structures: geosynthetics, waterproofing, anticorrosive compounds.
- Special materials for bridge construction: special steels, aluminum, composites.
- Assessment of the technical condition of bridge structures.
- Modern bridge structure monitoring systems.
- Tools and high-strength fasteners for bridge construction.
- Special equipment, construction equipment and materials for the construction of roads and bridges.
- Features of the design and construction of bridges in complex climatic and geological conditions.
- Russian and foreign experience in the application of modern technologies, machinery and materials in the construction, reconstruction, restoration and reinforcement of bridge structures.

THE CONFERENCE TIMING:

- **9-10 April:** technical and commercial reports, exhibition work.
- **11 April:** technical excursion.

ATTENTION! Please fill in the **APPLICATION FORM** to participate in the conference and send it to the conference managers from the International Association of Foundation Contractors by e-mail: info@fc-union.com.

If you need the application form or any other details, please, feel free to contact us by phone:

+7 (495) 66-55-014, моб. +7 916-36-857-36, +7 926-38-474-68, +7 925-86-101-81.

We would be happy to see you among participants of our events.

Best wishes,

Director General of the International Association of Foundation Contractors,
Catherine Dubrovskaya
